

Math/Science Procedures

1. Students should be prepared each day with a pen or pencil, a binder and the completed H.W. assignment ready to be looked at and graded.
2. After entering the room, sit in your assigned seat, place H.W. on desk, then copy the E.Q. and Do Now, and complete your assignment.
3. Listen and follow directions. Participate daily in class lesson. Ask questions when something is unclear or you just do not understand.
4. You will be required to keep a full sized (8 by 11) neat loose-leaf binder with all hand-outs and H.W.'s organized in a folder.
5. H.W. is very important and should be completed as per instructed.
6. Make up H.W.'s are allowed for only one reason, you are absent!
7. All test and quizzes are to be shared with parents..
8. Grades are determined as follows:

1/3-Test and quizzes

1/3-classwork

1/3-H.W.'s

Follow these simple procedures and you'll have a great educational experience

I have read and understand the following procedures.
