The Mini Mustangs

Preschool

at

Milford Public School

The Mini Mustangs Preschool at Milford Public School offers an inclusive program for typically developing three and four year old children, as well as providing services for those preschool aged students with special needs.

Learning Environment

Our preschool is a nurturing and child centered program that follows the New Jersey Preschool Standards for teaching young children.

We focus on language and speech development through whole class and small group instruction that introduces and practices early reading skills. Time

is spent each day on free play, sensory play, gross motor activities, music and stories. We offer physical education and socialization opportunities with our kindergarten class, art, and instruction on our computers taught by certified specialists.

The Mini Mustangs Preschool is a professional experienced team who will see that your child has the opportunity to grow and learn in a well supervised and supportive setting with a low teacher – student ratio.

Our carefully planned programs focus on encouraging and supporting a child's ability to question, think, and problem solve.

Themes within our program include but are not limited to: weather, seasons, and holidays. We introduce a letter of the alphabet each week and plan activities and learning experiences to correlate with that letter encouraging math, pre-writing, exploration and socialization skills.

Special Services

Speech, Occupational, and Physical Therapies are provided to our students

with special needs. These professionals are available for consultation when needed and often conduct sessions within the preschool classroom.

Call 908-995-4349 for additional information.
