

## Seventh and Eighth Grades Social Studies for Second Marking Period, 2011

The seventh and eighth graders have been studying the Civil War. They did this study through differentiated instruction projects that they worked on individually based on their interests. Students completed activities on some of the following:

- Timeline of the Civil War
- Battles
- Civil War culture and music
- Abraham Lincoln speeches
- Analysis of the Civil War photographs
- Medical care

Reconstruction after the Civil War is our next unit of study and then we begin an extensive study of Economics.
