## Dates to Note:

- Jan. 31 Report Card Day
- Feb. 7 PTO Bowling Night
- Feb. 8 Acceptance Day  
Board of Ed. Mtg. 7:00
- Feb. 10 Slipper Day  
Student Council Valentine  
Dance
- Feb. 14 Wear Red Day  
Valentine's Day
- Feb. 16 Patriotic Day
- Feb. 17-20 President's Weekend
- Feb. 21 Kindergarten Roundup
- Feb. 24 Jump Rope for Heart

## Dear Parents:

**Here is what has been going on at Milford School:**

### Information from the Board

Dear Milford Parents:

I wanted to call to your attention to recent legislative action, specifically Bill #A-4394/S-3148, signed into law on January 17, 2012 by Governor Chris Christie that will have an impact on the Budget and Election process for School Boards. This bill establishes procedures for moving the date of a school district's annual school election to the day of the general election in November. This

move has been desired for years by many who claim that election turnout is low in April. Furthermore, the cost of running the election has had to be borne by the schools - it will now be shared with the Municipality, State and Local Government entities. The law also mandates that if a district moves its annual school election to November, it does not require voter approval for a base budget, but any proposal to exceed the 2 percent tax levy cap would be presented for voter approval in November. District board members elected in November would take office at the beginning of January, instead of April as they do today. Moving the election to November requires adoption of a resolution by the board of education.

As was advertised, there was a special election on Monday, January 30, 2012 for the Board to vote on this resolution, which was unanimously approved.

Other practices remain the same, specifically preparation of the annual budget with parental and community input, a public meeting to share the budget and information on the budget being made available on the school's website and in the public library.

<http://www.state.nj.us/governor/news/news/552012/approved/20120117f.html>

### **Student of the Week**

Abby Schaefer is our student of the week. She was nominated by Mrs. Andresen because she is an outstanding student who is very enthusiastic about school and is extremely motivated to always do her best. Abby applies what she learns and works hard to improve her skills. She is helpful and kind to everyone and has a great sense of humor. Congratulations, Abby!

### **Tuition Students**

Please read the attached notice about the reduced cost of tuition to attend Milford School. If you are interested in attending Milford School for 2012-2013, please let me know at 995-4349.

### **Kindergarten Roundup**

If you have a child who will be five before October 1, 2012, he/she is eligible for kindergarten. You and your child are invited to our kindergarten roundup on Tuesday, Feb. 21 at 1:00 in the gym. Mrs. Warner will give a presentation about her kindergarten program for the parents and students will gather to meet other future kindergarteners.

### **Extended Child Care Available**

Milford School will offer child care from 7AM until 6PM beginning Tuesday, Feb. 21. If you are interested in having your child attend, please fill out the attached form and return it to me as soon

as possible. The cost has not been voted on by the board, but will be in alignment with the current cost of childcare.

### **CCD at Milford School**

Milford School is the site for the St. Edward's CCD program. Every Monday and Wednesday afternoons, students and teachers use our classrooms for their religious education. Since St. Edward's Parish Center is used as our emergency school location, we are pleased to offer this community service to St. Edwards Parish.

### **After School Tutoring**

Since Milford School is receiving Title I funding, we are able to offer after school tutoring to students who are identified to need additional academic support. Mrs. Seow and Mr. St. Laurent are teaching this program.

### **Spelling Bee**

The results of the 2011-2012 spelling bee are:  
1<sup>st</sup> Liam McCracken  
2<sup>nd</sup> Robert Polansky  
3<sup>rd</sup> Jared Pershyn  
Alternate: Ethan Coss

About 25 students in Grades 5-8 participated in the spelling bee. Congratulations to all of the participants and to our winners! Liam will participate in the Express Times spelling bee.

### **Kicking Off 2012 in Miss Carro's Classes!**

### **Sixth Grade Reading, Language Arts, Math & Social Studies**

In sixth grade language arts, the students have been doing an outstanding job compiling information for their research

reports. They have been diligent throughout every step of the research process so far: finding text and internet sources, taking notes, and creating outlines. Next, they will compose their rough drafts, peer edit, and finally, publish their final copies of their reports. They will also compile a formal bibliography to cite their sources. Lastly, the students will create PowerPoint presentations to give their classmates an overview of their research.

Some of the interesting topics being explored are Tokay geckos, Walt Disney, asthma, the constellation Leo, the Great Wall of China, and much more! This will be a great accomplishment for the sixth graders, and they are already excelling. Way to go!

In reading class, the students are doing a nonfiction study. They just finished reading about the life of Helen Keller. They read an excerpt of her autobiography as well as a short biography on her life and compared the information that was presented.

Next, the students will read about how the great pyramids of ancient Egypt were constructed, in alignment with our upcoming study of Egypt in social studies!

In social studies, the students have been studying Mesopotamian river valley civilizations. They are learning about the farming techniques and various innovations of these peoples. Did you know that the Sumerians were the first to develop a written language comprised of pictorial symbols known as cuneiform? They also created the calendar, sailboat, and potter's wheel!

In addition, we look forward to exploring the mysteries of ancient Egypt in the near future.

In the world of math, the students are continuing to pursue their study of fractions. They just finished mastering how to estimate, add, and subtract fractions and mixed numbers. Next, they will delve into multiplying and dividing fractions and mixed numbers.

What has made math so exciting lately is the incorporation of our interactive textbook. We now have the ability to display textbook pages on the Epson projector, use interactive tools, and even watch video clips associated with each lesson! The students are highly engaged and are advancing in their learning with this new feature.

### **Fifth Grade Reading & Language Arts**

The fifth graders have been dedicated to informative writing. They recently finished writing paragraphs regarding a famous explorer or an aspect of the United States government. They read their books, took notes, made miniature outlines, wrote rough drafts, peer edited each other's work, and published their paragraphs on the computer. With the task of writing an informative paragraph successfully completed, the students are now ready to begin writing a short research report! They are thrilled to search for sources and embark on this writing journey.

In reading class, the students have begun a new novel: *The Orphan of Ellis Island* by Elvira Woodruff. It is a wonderful sci-fi/fantasy story of a young boy who travels back in time to Italy in the year 1908. The students will continue to use various reading comprehension

strategies while exploring the novel: summarization, questioning, prediction, visualization, making connections, and inferencing. They have already written some fantastic responses to the novel in their reading journals and have shared them with their peers!

### **Reading Olympics**

This year, a team of fifth and sixth graders from Milford School are participating in the county wide Reading Olympics program. Within this program, the students are challenged to read 35 preselected books by mid-April. A competition will then be held at Holland School where various teams will be asked questions regarding the books. The Milford team is both excited and motivated for this challenge! They have been reading up a storm and will meet periodically to discuss the literature.

### **News from Mrs. Zdepski's Classes:**

#### **Grade 5 Social Studies**

Why did different people come to the English colonies and where did they settle?

This is just one of the many questions we will be researching as we enter Unit 3- The Thirteen Colonies. We are looking forward to learning new information and participating in new projects.

#### **Grades 7 & 8 Language Arts**

Students are off to a great start with their research projects. They have chosen among many various topics such as environmental, historical and technology-based.

#### **Grade 7 Reading**

We are currently reading *White Fang*, as written by classic American author Jack

London. We will be completing projects as we read this great story. One of the projects will be a written, as well as oral, book report.

### **Grade 8 Reading**

The eighth grade is currently reading *Flowers for Algernon*, by Daniel Keyes. Unlike most books, *Flowers for Algernon* is written as a journal from the main character's point of view. The students will be entering information about the story on an online blog; this ties into our current technology endeavors. Stay tuned!

### **From Mrs. Mandatta**

The students have been working hard at applying the F.I.T.T. Principles in all the activities during Physical Education class. The middle school students have been using Plyometrics to improve their muscle conditioning and they are having fun playing Basketball.

The younger students have been learning about different Locomotor skills and why they are important. They are also working on improving their throwing with accuracy and receiving with two hands.

Please check out the bulletin board in the gym to see our P.E. Students of the Month honorees. Congratulations to all. I would also like to thank all the volunteers who made the Breakfast with Santa a huge success. The PTO members helped with shopping for the food and got up early to start making the pancakes, waffles, sausage, and bacon. The kids had a lot of fun making crafts, visiting with Santa, and hanging with their friends and family.

The Student Council and Yearbook students did a fantastic job at being food servers and helpers at the craft tables.

### **Student of the Week**

Abby Schaefer is our student of the week. She was nominated by Mrs. Andresen because she is an outstanding student who is very enthusiastic about school and is extremely motivated to always do her best. Abby applies what she learns and works hard to improve her skills. She is helpful and kind to everyone and has a great sense of humor. Congratulations, Abby!

### **Tuition Students**

Please read the attached notice about the reduced cost of tuition to attend Milford School. If you are interested in attending Milford School for 2012-2013, please let me know at 995-4349.

### **Kindergarten Roundup**

If you have a child who will be five before October 1, 2012, he/she is eligible for kindergarten. You and your child are invited to our kindergarten roundup on Tuesday, Feb. 21 at 1:00 in the gym. Mrs. Warner will give a presentation about her kindergarten program for the parents and students will gather to meet other future kindergarteners.

### **Extended Child Care Available**

Milford School will offer child care from 7AM until 6PM beginning Tuesday, Feb. 21. If you are interested in having your child attend, please fill out the attached form and return it to me as soon

as possible. The cost has not been voted on by the board, but will be in alignment with the current cost of childcare.

### **CCD at Milford School**

Milford School is the site for the St. Edward's CCD program. Every Monday and Wednesday afternoons, students and teachers use our classrooms for their religious education. Since St. Edward's Parish Center is used as our emergency school location, we are pleased to offer this community service to St. Edwards Parish.

### **After School Tutoring**

Since Milford School is receiving Title I funding, we are able to offer after school tutoring to students who are identified to need additional academic support. Mrs. Seow and Mr. St. Laurent are teaching this program.

### **Spelling Bee**

The results of the 2011-2012 spelling bee are:  
1<sup>st</sup> Liam McCracken  
2<sup>nd</sup> Robert Polansky  
3<sup>rd</sup> Jared Pershyn  
Alternate: Ethan Coss

About 25 students in Grades 5-8 participated in the spelling bee. Congratulations to all of the participants and to our winners! Liam will participate in the Express Times spelling bee.

### **Kicking Off 2012 in Miss Carro's Classes!**

### **Sixth Grade Reading, Language Arts, Math & Social Studies**

In sixth grade language arts, the students have been doing an outstanding job compiling information for their research

reports. They have been diligent throughout every step of the research process so far: finding text and internet sources, taking notes, and creating outlines. Next, they will compose their rough drafts, peer edit, and finally, publish their final copies of their reports. They will also compile a formal bibliography to cite their sources. Lastly, the students will create PowerPoint presentations to give their classmates an overview of their research.

Some of the interesting topics being explored are Tokay geckos, Walt Disney, asthma, the constellation Leo, the Great Wall of China, and much more! This will be a great accomplishment for the sixth graders, and they are already excelling. Way to go!

In reading class, the students are doing a nonfiction study. They just finished reading about the life of Helen Keller. They read an excerpt of her autobiography as well as a short biography on her life and compared the information that was presented.

Next, the students will read about how the great pyramids of ancient Egypt were constructed, in alignment with our upcoming study of Egypt in social studies!

In social studies, the students have been studying Mesopotamian river valley civilizations. They are learning about the farming techniques and various innovations of these peoples. Did you know that the Sumerians were the first to develop a written language comprised of pictorial symbols known as cuneiform? They also created the calendar, sailboat, and potter's wheel!

In addition, we look forward to exploring the mysteries of ancient Egypt in the near future.

In the world of math, the students are continuing to pursue their study of fractions. They just finished mastering how to estimate, add, and subtract fractions and mixed numbers. Next, they will delve into multiplying and dividing fractions and mixed numbers.

What has made math so exciting lately is the incorporation of our interactive textbook. We now have the ability to display textbook pages on the Epson projector, use interactive tools, and even watch video clips associated with each lesson! The students are highly engaged and are advancing in their learning with this new feature.

### **Fifth Grade Reading & Language Arts**

The fifth graders have been dedicated to informative writing. They recently finished writing paragraphs regarding a famous explorer or an aspect of the United States government. They read their books, took notes, made miniature outlines, wrote rough drafts, peer edited each other's work, and published their paragraphs on the computer. With the task of writing an informative paragraph successfully completed, the students are now ready to begin writing a short research report! They are thrilled to search for sources and embark on this writing journey.

In reading class, the students have begun a new novel: *The Orphan of Ellis Island* by Elvira Woodruff. It is a wonderful sci-fi/fantasy story of a young boy who travels back in time to Italy in the year 1908. The students will continue to use various reading comprehension

strategies while exploring the novel: summarization, questioning, prediction, visualization, making connections, and inferencing. They have already written some fantastic responses to the novel in their reading journals and have shared them with their peers!

### **Reading Olympics**

This year, a team of fifth and sixth graders from Milford School are participating in the county wide Reading Olympics program. Within this program, the students are challenged to read 35 preselected books by mid-April. A competition will then be held at Holland School where various teams will be asked questions regarding the books. The Milford team is both excited and motivated for this challenge! They have been reading up a storm and will meet periodically to discuss the literature.

### **News from Mrs. Zdepski's Classes:**

#### **Grade 5 Social Studies**

Why did different people come to the English colonies and where did they settle?

This is just one of the many questions we will be researching as we enter Unit 3- The Thirteen Colonies. We are looking forward to learning new information and participating in new projects.

#### **Grades 7 & 8 Language Arts**

Students are off to a great start with their research projects. They have chosen among many various topics such as environmental, historical and technology-based.

#### **Grade 7 Reading**

We are currently reading *White Fang*, as written by classic American author Jack

London. We will be completing projects as we read this great story. One of the projects will be a written, as well as oral, book report.

### **Grade 8 Reading**

The eighth grade is currently reading *Flowers for Algernon*, by Daniel Keyes. Unlike most books, *Flowers for Algernon* is written as a journal from the main character's point of view. The students will be entering information about the story on an online blog; this ties into our current technology endeavors. Stay tuned!

### **From Mrs. Mandatta**

The students have been working hard at applying the F.I.T.T. Principles in all the activities during Physical Education class. The middle school students have been using Plyometrics to improve their muscle conditioning and they are having fun playing Basketball.

The younger students have been learning about different Locomotor skills and why they are important. They are also working on improving their throwing with accuracy and receiving with two hands.

Please check out the bulletin board in the gym to see our P.E. Students of the Month honorees. Congratulations to all. I would also like to thank all the volunteers who made the Breakfast with Santa a huge success. The PTO members helped with shopping for the food and got up early to start making the pancakes, waffles, sausage, and bacon. The kids had a lot of fun making crafts, visiting with Santa, and hanging with their friends and family.

The Student Council and Yearbook students did a fantastic job at being food servers and helpers at the craft tables.

## Dear Parents:

**Here is what has been going on at Milford School:**

### Information from the Board

Dear Milford Parents:

I wanted to call to your attention to recent legislative action, specifically Bill #A-4394/S-3148, signed into law on January 17, 2012 by Governor Chris Christie that will have an impact on the Budget and Election process for School Boards. This bill establishes procedures for moving the date of a school district's annual school election to the day of the general election in November. This

move has been desired for years by many who claim that election turnout is low in April. Furthermore, the cost of running the election has had to be borne by the schools - it will now be shared with the Municipality, State and Local Government entities. The law also mandates that if a district moves its annual school election to November, it does not require voter approval for a base budget, but any proposal to exceed the 2 percent tax levy cap would be presented for voter approval in November. District board members elected in November would take office at the beginning of January, instead of April as they do today. Moving the election to November requires adoption of a resolution by the board of education.

As was advertised, there was a special election on Monday, January 30, 2012 for the Board to vote on this resolution, which was unanimously approved.

Other practices remain the same, specifically preparation of the annual budget with parental and community input, a public meeting to share the budget and information on the budget being made available on the school's website and in the public library.

In sixth grade language arts, the students have been doing an outstanding job compiling information for their research

reports. They have been diligent throughout every step of the research process so far: finding text and internet sources, taking notes, and creating outlines. Next, they will compose their rough drafts, peer edit, and finally, publish their final copies of their reports. They will also compile a formal bibliography to cite their sources. Lastly, the students will create PowerPoint presentations to give their classmates an overview of their research.

Some of the interesting topics being explored are Tokay geckos, Walt Disney, asthma, the constellation Leo, the Great Wall of China, and much more! This will be a great accomplishment for the sixth graders, and they are already excelling. Way to go!

In reading class, the students are doing a nonfiction study. They just finished reading about the life of Helen Keller. They read an excerpt of her autobiography as well as a short biography on her life and compared the information that was presented.

Next, the students will read about how the great pyramids of ancient Egypt were constructed, in alignment with our upcoming study of Egypt in social studies!

In social studies, the students have been studying Mesopotamian river valley civilizations. They are learning about the farming techniques and various innovations of these peoples. Did you know that the Sumerians were the first to develop a written language comprised of pictorial symbols known as cuneiform? They also created the calendar, sailboat, and potter's wheel!

In addition, we look forward to exploring the mysteries of ancient Egypt in the near future.

In the world of math, the students are continuing to pursue their study of fractions. They just finished mastering how to estimate, add, and subtract fractions and mixed numbers. Next, they will delve into multiplying and dividing fractions and mixed numbers.

What has made math so exciting lately is the incorporation of our interactive textbook. We now have the ability to display textbook pages on the Epson projector, use interactive tools, and even watch video clips associated with each lesson! The students are highly engaged and are advancing in their learning with this new feature.

### **Fifth Grade Reading & Language Arts**

The fifth graders have been dedicated to informative writing. They recently finished writing paragraphs regarding a famous explorer or an aspect of the United States government. They read their books, took notes, made miniature outlines, wrote rough drafts, peer edited each other's work, and published their paragraphs on the computer. With the task of writing an informative paragraph successfully completed, the students are now ready to begin writing a short research report! They are thrilled to search for sources and embark on this writing journey.

In reading class, the students have begun a new novel: *The Orphan of Ellis Island* by Elvira Woodruff. It is a wonderful sci-fi/fantasy story of a young boy who travels back in time to Italy in the year 1908. The students will continue to use various reading comprehension

strategies while exploring the novel: summarization, questioning, prediction, visualization, making connections, and inferencing. They have already written some fantastic responses to the novel in their reading journals and have shared them with their peers!

### **Reading Olympics**

This year, a team of fifth and sixth graders from Milford School are participating in the county wide Reading Olympics program. Within this program, the students are challenged to read 35 preselected books by mid-April. A competition will then be held at Holland School where various teams will be asked questions regarding the books. The Milford team is both excited and motivated for this challenge! They have been reading up a storm and will meet periodically to discuss the literature.

### **News from Mrs. Zdepski's Classes:**

#### **Grade 5 Social Studies**

Why did different people come to the English colonies and where did they settle?

This is just one of the many questions we will be researching as we enter Unit 3- The Thirteen Colonies. We are looking forward to learning new information and participating in new projects.

#### **Grades 7 & 8 Language Arts**

Students are off to a great start with their research projects. They have chosen among many various topics such as environmental, historical and technology-based.

#### **Grade 7 Reading**

We are currently reading *White Fang*, as written by classic American author Jack

London. We will be completing projects as we read this great story. One of the projects will be a written, as well as oral, book report.

#### **Grade 8 Reading**

The eighth grade is currently reading *Flowers for Algernon*, by Daniel Keyes. Unlike most books, *Flowers for Algernon* is written as a journal from the main character's point of view. The students will be entering information about the story on an online blog; this ties into our current technology endeavors. Stay tuned!

#### **From Mrs. Mandatta**

The students have been working hard at applying the F.I.T.T. Principles in all the activities during Physical Education class. The middle school students have been using Plyometrics to improve their muscle conditioning and they are having fun playing Basketball.

The younger students have been learning about different Locomotor skills and why they are important. They are also working on improving their throwing with accuracy and receiving with two hands.

Please check out the bulletin board in the gym to see our P.E. Students of the Month honorees. Congratulations to all. I would also like to thank all the volunteers who made the Breakfast with Santa a huge success. The PTO members helped with shopping for the food and got up early to start making the pancakes, waffles, sausage, and bacon. The kids had a lot of fun making crafts, visiting with Santa, and hanging with their friends and family.

The Student Council and Yearbook students did a fantastic job at being food servers and helpers at the craft tables.

- Feb. 24 Jump Rope for Heart

## Dear Parents:

**Here is what has been going on at Milford School:**

### Information from the Board

Dear Milford Parents:

I wanted to call to your attention to recent legislative action, specifically Bill #A-4394/S-3148, signed into law on January 17, 2012 by Governor Chris Christie that will have an impact on the Budget and Election process for School Boards. This bill establishes procedures for moving the date of a school district's annual school election to the day of the general election in November. This

move has been desired for years by many who claim that election turnout is low in April. Furthermore, the cost of running the election has had to be borne by the schools - it will now be shared with the Municipality, State and Local Government entities. The law also mandates that if a district moves its annual school election to November, it does not require voter approval for a base budget, but any proposal to exceed the 2 percent tax levy cap would be presented for voter approval in November. District board members elected in November would take office at the beginning of January, instead of April as they do today. Moving the election to November requires adoption of a resolution by the board of education.

As was advertised, there was a special election on Monday, January 30, 2012 for the Board to vote on this resolution, which was unanimously approved.

Other practices remain the same, specifically preparation of the annual budget with parental and community input, a public meeting to share the budget and information on the budget being made available on the school's website and in the public library.

### **Student of the Week**

Abby Schaefer is our student of the week. She was nominated by Mrs. Andresen because she is an outstanding student who is very enthusiastic about school and is extremely motivated to always do her best. Abby applies what she learns and works hard to improve her skills. She is helpful and kind to everyone and has a great sense of humor. Congratulations, Abby!

### **Tuition Students**

Please read the attached notice about the reduced cost of tuition to attend Milford School. If you are interested in attending Milford School for 2012-2013, please let me know at 995-4349.

### **Kindergarten Roundup**

If you have a child who will be five before October 1, 2012, he/she is eligible for kindergarten. You and your child are invited to our kindergarten roundup on Tuesday, Feb. 21 at 1:00 in the gym. Mrs. Warner will give a presentation about her kindergarten program for the parents and students will gather to meet other future kindergarteners.

### **Extended Child Care Available**

Milford School will offer child care from 7AM until 6PM beginning Tuesday, Feb. 21. If you are interested in having your child attend, please fill out the attached form and return it to me as soon

as possible. The cost has not been voted on by the board, but will be in alignment with the current cost of childcare.

### **CCD at Milford School**

Milford School is the site for the St. Edward's CCD program. Every Monday and Wednesday afternoons, students and teachers use our classrooms for their religious education. Since St. Edward's Parish Center is used as our emergency school location, we are pleased to offer this community service to St. Edwards Parish.

### **After School Tutoring**

Since Milford School is receiving Title I funding, we are able to offer after school tutoring to students who are identified to need additional academic support. Mrs. Seow and Mr. St. Laurent are teaching this program.

### **Spelling Bee**

The results of the 2011-2012 spelling bee are:  
1<sup>st</sup> Liam McCracken  
2<sup>nd</sup> Robert Polansky  
3<sup>rd</sup> Jared Pershyn  
Alternate: Ethan Coss

About 25 students in Grades 5-8 participated in the spelling bee. Congratulations to all of the participants and to our winners! Liam will participate in the Express Times spelling bee.

### **Kicking Off 2012 in Miss Carro's Classes!**

### **Sixth Grade Reading, Language Arts, Math & Social Studies**

In sixth grade language arts, the students have been doing an outstanding job compiling information for their research

reports. They have been diligent throughout every step of the research process so far: finding text and internet sources, taking notes, and creating outlines. Next, they will compose their rough drafts, peer edit, and finally, publish their final copies of their reports. They will also compile a formal bibliography to cite their sources. They are thrilled to search for sources and embark on this writing journey.

In reading class, the students have begun a new novel: *The Orphan of Ellis Island* by Elvira Woodruff. It is a wonderful sci-fi/fantasy story of a young boy who travels back in time to Italy in the year 1908. The students will continue to use various reading comprehension

strategies while exploring the novel: summarization, questioning, prediction, visualization, making connections, and inferencing. They have already written some fantastic responses to the novel in their reading journals and have shared them with their peers!

### **Reading Olympics**

This year, a team of fifth and sixth graders from Milford School are participating in the county wide Reading Olympics program. Within this program, the students are challenged to read 35 preselected books by mid-April. A competition will then be held at Holland School where various teams will be asked questions regarding the books. The Milford team is both excited and motivated for this challenge! They have been reading up a storm and will meet periodically to discuss the literature.

### **News from Mrs. Zdepski's Classes:**

#### **Grade 5 Social Studies**

Why did different people come to the English colonies and where did they settle?

This is just one of the many questions we will be researching as we enter Unit 3- The Thirteen Colonies. We are looking forward to learning new information and participating in new projects.

#### **Grades 7 & 8 Language Arts**

Students are off to a great start with their research projects. They have chosen among many various topics such as environmental, historical and technology-based.

#### **Grade 7 Reading**

We are currently reading *White Fang*, as written by classic American author Jack

London. We will be completing projects as we read this great story. One of the projects will be a written, as well as oral, book report.

### **Grade 8 Reading**

The eighth grade is currently reading *Flowers for Algernon*, by Daniel Keyes. Unlike most books, *Flowers for Algernon* is written as a journal from the main character's point of view. The students will be entering information about the story on an online blog; this ties into our current technology endeavors. Stay tuned!

### **From Mrs. Mandatta**

The students have been working hard at applying the F.I.T.T. Principles in all the activities during Physical Education class. The middle school students have been using Plyometrics to improve their muscle conditioning and they are having fun playing Basketball.

The younger students have been learning about different Locomotor skills and why they are important. They are also working on improving their throwing with accuracy and receiving with two hands.

Please check out the bulletin board in the gym to see our P.E. Students of the Month honorees. Congratulations to all. I would also like to thank all the volunteers who made the Breakfast with Santa a huge success. The PTO members helped with shopping for the food and got up early to start making the pancakes, waffles, sausage, and bacon. The kids had a lot of fun making crafts, visiting with Santa, and hanging with their friends and family.

The Student Council and Yearbook students did a fantastic job at being food servers and helpers at the craft tables.
